

# Staying Safe & Healthy at the Johann Fust Community Library

The Johann Fust Library Foundation is taking precautions to prevent the spread of coronavirus (COVID-19).

As the custodians of the Johann Fust Community Library, the safety of the library patrons and the library and foundation staff is of utmost importance to us.

We have placed hand sanitizer and disinfecting wipes at various locations throughout the facility and we have doubled the presence of cleaning professionals. Each morning, the door handles, tables, bathrooms and trash containers are thoroughly wiped down with disinfecting cleaners.

The “virtual” handshake and a smile are safe substitutes during this time of concern. The best defense that we can all practice is frequent hand washing with soap and hot water for at least 20 seconds. We ask that as you visit the library, you are mindful of other members of the community.

Please help us to ensure that the facility remains as sanitary as possible, by disposing of tissues and other items in the appropriate waste receptacles.

If you see something amiss in the facility, please alert a staff member, so that we can resolve it immediately.

As more information emerges on the status of the coronavirus, we will continue to address this threat to the health of our community members.

Thank you for your cooperation as we all strive to stay safe and healthy.
